

SEAN MILLER

GROWTH CATALYST

KANSAS CITY

SUMMARY

Sean Miller was born and raised in Kansas City, MO. He went to Rockhurst High School and Regis College in Denver, CO. After graduation he sold forklifts in Denver for three years where he was the top salesperson for the top dealership in the state of Colorado.

Sean married his wife Karen in 1982 and they moved to Kansas City to go to work with Sean's dad at the Robert E. Miller Insurance Agency and quickly developed a practice focused on the insurance and benefits needs of not-for-profit organizations.

He acquired the Miller Group with his brother, Matt, in 1992. At that time, they had less than \$2,000,000 in revenue and almost no profit. At the end of 2022, they had over \$15,000,000 in revenue and \$3,000,000 in EBITDA with over 65 employees.

The Miller Group is consistently recognized by the Kansas City Business Journal as a Best Place to Work and a Healthiest Employer in Kansas City. They were named the Business Philanthropist of the year by Nonprofit Connect in 2017. Sean and Matt are committed to the purpose (to serve others for the greater glory of God) and values (God, family and community come first) of the Miller Group that they learned from their dad and have passed down to their kids (6 of whom work in the company). To ensure these values continue forward, they are committed to perpetuating the company in the family.

On January 1st of 2023, Sean passed his role of CEO to his niece, Amber Manning, who he has been mentoring for the past five years. He continues in the capacity as Chairman at The Miller Group.
